TODAY'S PRESENTATION

TROUBLED WATERS: CONNECTIONS AND CONSEQUENCES **ST. JOHNS RIVERKEEPER**

All of Florida's waters are connected, and so are the forces that are overusing and polluting them. The only parts of the water picture in Florida that are not connected are the wishes of the citizens to the actions of the State's leaders. In "Troubled Waters: Connections and Consequences," we find out how the St. Johns River, its springs and its tributaries are a bellwether for the health and future of Florida's economy and the consequences we will all face if we don't change the way we treat our Troubled Waters. Troubled Waters was produced by Ray Hays and [PRC Digital Media](#), and funded by St. Johns Riverkeeper. The production is the 2017 Winner at the Cinema Verde Film Festival.
